SCAN**RALLY** REFLECT

Boiler Suit | UV protection

In compliance with:
EN 13688 and EN 13758-2

The clothing referred to in these instructions, complies with the essential requirements of the EU Regulation 2016/425 concerning Personal Protective Equipment (PPE).

The EU Declaration of Conformity (DOC) can be found at the Scandia Gear website (www.scandiagear.com), under the Scandia product name ScanRally Reflect and through the link "Declaration of Conformity".

Testing and assessment proved that this garment complies with the harmonized standards EN 13688: 2013+A1:2021 and EN 13758-2 (2003+A1:2006).

Read these instructions carefully prior to first use and store them for future consultation.

EN 13758-2 - UV protection

This clothing is designed to offer protection against solar utraviolet radiation exposure (UVA and UVB). The UPF measured is >50. This means that more than 98% of the harmful UV-radiation is blocked by the fabric. The clothing herewith offers the highest level of protection.

Note:
- *Only covered parts of the body are protected. Take care of protection for other parts of the body (e.g. by wearing a hat and/or using sun milk).*
- *Protection may be reduced with use or if stretched or wet.*

General product use

- Prior to performing work associated with certain risks, consult your safety officer or line manager regarding the appropriate personal protective equipment.
- Even when wearing high quality protective clothing, please do to take into account that your safety cannot be guaranteed under any circumstance.
- In order to be protected properly, the user shall wear a complete suit with the same level of protection (a suit means a coverall or a two piece suit consisting of a jacket and a pair of trousers or bib and brace trousers).The garments (e.g. jacket) can be sold separately.
- Two piece suits are designed to guarantee an overlap of 20 cm in all positions between the upper and lower part. Please see to this sufficient overlap when choosing your size.
- These garments do not offer protection for face, hands and feet. Make sure you use the adequate PPE for these parts of your body.
- If the garment has extra layers at the knees, this is only to enhance the strength of the garment or to enhance the comfort of the wearer. This is by no means a protection against knee injuries.
- This garment is suitable for wearing during an entire working day and contains no toxic, carcinogenic, mutagenic, or other substances that can affect the health or hygiene of the user adversely. No allergic reactions due to skin contact with this garment are known.
- The garments can be recycled through the appropriate channels in your country.
- Damaged clothing will most likely diminish the protection level of the garments. Regular checks on damage or ageing and if necessary repairing or replacing the garments will make sure your protection is maintained.

Care and maintenance instructions

- Check your garments for damage before each use.
- Repairs have to be done by trained personnel using only original materials.
- The materials used in the garments are suitable for domestic (see care label) or industrial (ask your supplier for specific information) washing. No finishes are needed to maintain the characteristics.
- To avoid damage to the clothing, it is recommended to close the garments during the washing process and to wash inside out.
- Wear and tear will diminish the UV protective properties of the garments – so make sure to check this on a regular basis.
- Do not store the clothing in solvents, detergents, disinfecting agents or stain removers.
- Do not store the clothing when soiled.
