

# Peltor G3000D helmet

## Safety helmet

Product code: 3010.12

### Features

- Produced using high quality, UV-stabilised, ABS plastic
- One of the lightest safety helmets available
- Designed to protect against low temperatures (to  $-30^{\circ}$  C.) and electrical surges (to 440 V), featuring a shorter screen that offers increased ease of movement without compromising anti-dazzle protection
- Helmet insert can be turned  $180^{\circ}$ , allowing for climbing and work in confined spaces

### Norms and standards

- EN 397:2012+A1:2012 (industrial safety helmets)
